Subject: K list change

Rafael and/or Stef, I see that Central Boiler has made changes to their Classic Edge units, which are EPA certified (350, 550 and 750). I found this video on their Facebook page (<https://www.facebook.com/centralboiler/videos/1764186850269721/UzpfSTEwNjAwNDY0OTQyMTI5MToyNDAxNzc3NDQ5ODQzOTg4/>) detailing the changes. I believe changing items, like motors, are K list changes. I do not see any retest report so I am wondering if the manufacturer obtained an approval from EPA to make these changes without requiring retesting? If so, can you please send me a copy of that approval?

I look forward to your response.

Lisa
